roopaish

Full-Stack Developer with 5+ years of experience in building scalable web/mobile apps using TypeScript-based technologies. Proven expertise in crafting seamless UIs, backend APIs, and DevOps-ready deployments. Excels in remote and international collaboration, delivering high-quality outcomes under minimal supervision.

Experience

ApexEngine LLC Walnut Creek, CA (Remote)
Full Stack Developer Mar 2024 - April 2026

- Built fast and scalable web and native apps in fields like e-commerce, real-estate, harvests tracking, real-world collaborations etc.
- Delivered performant solutions with a strong emphasis on architecture and DX
- Carried out tasks like Figma to pixel perfect UIs, developing features by understanding the essence from clients requirements.

ORGO New York (Remote)
Frontend Developer & UI/UX designer May 2023 - Mar 2024

- Built a Web3-powered contribution/reward platform for eco-projects
- Implemented white-label PWA, real-time communications, map-based volunteering exploration, leaderboard, and analytics

Freelance USA/Nepal (Remote)
Full Stack Developer Aug 2022 - Feb 2024

- Developed eCommerce platforms with Vendure. [Link1] , [Link2]
- Created cross-platform restaurant pre-booking app. [Link]
- Collaborated with legal/financial experts to ship a legal document generator [Link]

Clamhook Lalitpur, Nepal
Mobile Application Developer Sep 2021 - Aug 2022

- Built Flutter app supporting online classes, test scoring, LATEX docs, and payments
- Integrated video conferencing between teachers and students.
